

Slight change to layout guys so pay attention!

You will see your work numbered and organised.

1. The first sheet will introduce the learning, it has my comments on to help you and at the end the answers so you can tell whether you were understanding it correctly.

a VF is fluency.

b PSR is problem solving and reasoning.

c is a task to see whether you have got it!

Please do it in order!

Remember to choose to do **either** strip **a** or **b**, you don't have to do both for the varied fluency sheet (VF) and problem solving and reasoning sheet (PS/R)

Complete the worksheets at your level:

GD - Blue

E - Green (Unless you want to push yourself - try GD)

D - Yellow (If you feel secure try E) / Red

I have included a few knowledge organisers to help you remember methods or facts - USE THEM!

Don't be afraid to challenge yourself!

Maths is easier when you smile!

Good luck, Ms M xx
