

Our Future. Our World.

Year 5&6, some time ago you all took part in making a pledge to do your part to reduce plastic waste and look after the oceans. Do you remember? 30 x 30 ? You made posters, we tweeted our pledge and stood in a big 30 ?

Monday 8th June is World Ocean Day.

The WWF website has compiled some wonderful resources and Sir David Attenborough has narrated the incredible clips.

Follow this link and watch and learn more about our oceans.

Scroll and find the subheading **Explore our ocean biomes**— watch the video.

https://www.wwf.org.uk/learn/love-nature/oceans?dm_i=38LF,11MOP,7AX9DY,3ZIEA,1

Then, look at the globe in this link and explore the **High Seas** link

<https://www.ourplanet.com/en/explorables-globe/landing>

Enjoy exploring the marvellous globe resource; watching the videos and discovering how the diversity of life in our oceans responds to various events. Having spent time with you, we know very well how passionate you all are about our wonderful world. Like you, we find these resources incredibly emotive.

We are lucky to live in a world where such things exist and we have the technology to explore them, (even while in lockdown!) we also have time to make a difference and safeguard this diverse planet for our future enjoyment.

Enjoy marvelling at the wonderful WWF website.

Discuss and share with your family.

Your task:

Write a letter to your future grown-up self. Use the passion you have now to encourage your future self to be respectful of and responsible for the world they live in. Give them advice, remind them why it is important and show how much you care!

We will use this fantastic resource to further explore our world as the term goes on.

Don't forget to show off your super work on the 5/6 Padlet! Just take a picture and upload it—easy!

Enjoy!

Ms M and Miss W
