

June Learning

This shouldn't require printing, you can just make notes guys.

Complete the VF strips before the PSR strip.

Remember to choose to do **either** strip **a** or **b**, you don't have to do both for the varied fluency sheet (VF) and problem solving and reasoning sheet (PS/R)

Complete the worksheets at your level:

GD - Blue

E - Green (Unless you want to push yourself - try GD)

D - Yellow (If you feel secure try E) / Red

There are also challenges - Do whichever you feel you can - or try all of them!

Don't be afraid to challenge yourself!

Maths is easier when you smile!

I have included some clips here to remind you about telling the time and timetables.
