

Visual challenge!

Can you solve the problem below and also label the right angles?

In One Diagram

This diagram might make it easier to remember:

Also: **A**cute, **O**btuse and **R**eflex are in alphabetical order.

2. Look at the shape below. Explore how many groups of angles there are on a straight line within the shape. One has been done for you.

A group will need to consist of at least three angles.

Not drawn to scale.
