

# Count in 5s

I count up in 5s from the number 5.

I will say both odd and even numbers.

True or false?

Explain how you know.

I count in 5s from 2.  
The number I am thinking of is between 15 and 30.

What numbers could Kat be thinking of?

How many are odd?

How many are even?

The 10<sup>th</sup> number on the number track will be greater than 50.

Gina

I counted my marbles and I have 5 more than 20.

I counted my marbles and I have 30.

Rob

True or false? Explain how you know.

Who has the most marbles?

Explain how you know.

I count in 5s from 7.  
Which number will not be said?

Explain how you know.

Spot and explain the mistake.

Continue the number track.

# Count in 5s

I count up in 5s from the number 5.

I will say both odd and even numbers.

True or false?

Explain how you know.

True

Every number will end in either a 0 (even) or a 5 (odd).

I count in 5s from 2.  
The number I am thinking of is between 15 and 30.

What numbers could Kat be thinking of?

17, 22 or 27.

How many are odd? 2

How many are even? 1

The 10<sup>th</sup> number on the number track will be greater than 50.

True or false? Explain how you know.

True. Continuing the number pattern will be: 15, 20, 25, 30, 35, 40, 45, 50, 55, 60. 60 is the 10<sup>th</sup> number.

Gina

I counted my marbles and I have 5 more than 20.

Rob

I counted my marbles and I have 30.

Who has the most marbles?

Explain how you know.

Rob has the most marbles with.

If Gina has 5 more than 20, she has 25 marbles.

30 is greater than 25, therefore Rob has the most.

I count in 5s from 7.

Which number will not be said?

Explain how you know.

25 will not be said.

7, 12, 17, 22, 27.

The numbers will always end in 2 or 7.

Spot and explain the mistake.

35 is incorrect. It should be 34.

All the numbers end in 9 or 4 when starting from 9.

Continue the number track. 39, 44, 49, etc...
